

HORIZONS

Understanding the impact of cancer diagnosis and treatment on everyday life

Thank you once again for taking part in this study. As you know, we would like you to complete follow-up HORIZONS questionnaires over the next few years. To make this easier, we would like to offer you the option to answer your questionnaires on our **new online system**.

Advantages of completing the questionnaires online

- It's easy to use and is laid out like the paper version
- You can access it on your computer, mobile or tablet device at any time
- You can create your own log in details—we will explain how in an email
- It allows you to take breaks and return to a 'saved' version
- All answers you provide will be kept strictly confidential and saved on our secure servers

Next steps

Let us know if you would like to complete your follow-up questionnaires online by ticking the relevant box towards the end of your questionnaire. You can also email us at **HORIZONS@soton.ac.uk** with Online Questionnaire Completion as the email subject and it would be helpful if you could include your participant number. We will then email you details about how to access and complete your questionnaire online.

If you prefer paper questionnaires, there is no need to do anything, we will post them to you with a pre-paid return envelope for you to return it to us. We look forward to receiving your questionnaire and seeing how you are getting on.

If you have any questions about the study or the questionnaires we would really like to hear from you; please get in touch with the research team.
Tel: 023 8059 6885; E-mail: HORIZONS@soton.ac.uk. Thank you.
