

Subject title: **Confidential HORIZONS Study** <Study ID>

Dear <name>,

<date>
Study ID:

Re: HORIZONS study; Understanding the impact of cancer diagnosis and treatment on everyday life

Thank you for taking part in our study. We have now reached the next stage of the study. I am therefore writing to you to ask whether you would be willing to complete a follow up questionnaire for us.

Even if you have not experienced problems during recovery it is important that you complete this questionnaire so that we can compare your experience with others. This research will help us to identify who is most at risk of problems and what could be done to help people return to health more quickly.

In the last questionnaire, you chose the option to complete the next questionnaire online. To do this, please click on this link: www.horizons-hub.org.uk/register.

To begin, you will need to complete the 'Registration' section using your Study ID. You will need to create your own password and provide an answer to one of the security questions. Click 'Next' and you will then be taken to the introduction page of the questionnaire.

All the information you give us will be completely confidential. There is no obligation for you to remain in the study and it will not affect your care or treatment in any way. If you would prefer not to remain in the study then please let us know and we will not contact you again.

Please do not hesitate to contact the research office if you have any questions or problems using the online system, or if you wish to receive a paper copy of the questionnaire. Thank you again for your time.

Yours sincerely,

Professor Claire Foster
Chief Investigator
